ITEM NO. : #254

JUNIOR CHAIR  BABY HIGH CHAIR

IMPORTANT!
READ CAREFULLY AND KEEP FOR FUTURE REFERENCE.
Parts List

1. seat unit & harness x1
2. 2 part tray x1
3. Connector (down groove) x1
4. Connector (up groove) x1
5. long legs (A, C) x2
6. long leg (B, D) x2
7. short leg (A, C) x2
8. Short leg (B, D) x2
9. short footrest x1
10. large footrest x1
11. screws with washers (M 4x60mm) x4
12. screws with washers (M 6x60mm) x5 (1pc spare part)
13. barrel nut x4
14. rubber stopper x4
15. bolts x4
16. allen key x1

Care

Maintenance
- The correct use and maintenance of this highchair is essential.
- This product requires regular maintenance to keep it in good working order.
- Regularly check all parts of the product to ensure that they are operating correctly and for signs of wear or damage.
- Do not use this product if any part is broken, torn or missing and use only spares provided by the manufacturer.

Cleaning
- Frame: Wipe with a damp cloth and wipe dry with a soft cloth.
- Harness: Sponge clean with a mild soap and water solution. Rinse and wipe dry.
- Never clean any part of highchair with abrasive, ammonia based, bleach based or spirit type cleaners.
- Ensure the product is fully dry before use or storage.
- Always ensure the highchair is stored in a dry place to prevent mold or mildew developing.
Safety

- Highchair is recommended to be used on flat stable surfaces.
- Please ensure that your Evolur Highchair is fully assembled before using.
- Do not move, recline, or adjust the height of this product with child in it.
- Never leave child unattended. Always keep your child in view.
- STRANGULATION HAZARD Do not place product in any location where there are cords, such as window blind cords, drapes, phone cords, etc.
- FOLLOW ASSEMBLY INSTRUCTIONS CAREFULLY as this product is intended to be assembled once. If you experience any difficulties, please contact the Customer Service Department.
- All additional hazards such as electrical flexes should be kept out of reach of your child when in the highchair.
- Assemble the chair once only, it is not intended to be taken apart and reassembled.
- PREVENT SERIOUS INJURY OR DEATH FROM SLIDING OUT, FALLS, OR TIPPING OVER. Always use seat belt. Secure your child at all times with the restraint system provided, either in the reclining or upright position. The tray is not designed to hold your child in the product. It is recommended that the product be used in the upright position only by children capable of sitting upright unassisted.
- The child should be secured in the highchair at all times using the restraining system.
- It is recommended that the highchair be used only by children capable of sitting upright unassisted.
- THIS PRODUCT IS DESIGNED AS A highchair for use with child up to 3 years of age or as an infant feeding booster seat for use with a child up to 6 years of age and up to 60 lbs (27.3kg).
- ALWAYS USE booster straps to attach infant/toddler feeding booster seat to any chair. Always ensure straps are pulled tight.
- THIS INFANT/TODDLER FEEDING BOOSTER SEAT is designed to be used by a child up to 6

Assembly

Assemble the connectors

1. Insert the downward groove of connector (3) onto the upwards groove of connector (4). Insert one screw and washer (12) into the hole and tighten using the Allen key (16). Make sure that the screws are fully tightened.

NOTICE: There are stickers with letters A,B,C or D at the end of each connector and leg. When assembling the connectors and legs together in the next step, correspond the letters on the connectors to the letters on the legs.

2a. Insert the barrel nut (13) into the hole into the fixed connector and use the screws and washers (11) to connect to the legs to the connectors. Make sure that the head of each screw is facing outwards.
Note: continue this step on the next page.
Assembly

2b. Insert the screws and washers (11) into the hole into long legs (5, A and C) and tighten using the Allen key (16). Make sure that the screws are fully tightened in the barrel nut.

Note: The legs are labeled for easy reference i.e. match the long leg "A" with the fixed connector's "A" side.

⚠️ WARNING:
Failure to fully tighten screws may cause instability.

Be sure to keep the pre-drilled holes on the same side. Please see the images below for reference.

3a. Repeat the same procedure to assemble long leg "B" (6) with the connectors.

Note: The legs are labeled for easy reference i.e. match the long leg "B" with the fixed connector's "B" side.

⚠️ WARNING:
Failure to fully tighten screws may cause instability.

Safety

BEFORE YOU USE THE PRODUCT, PLEASE CAREFULLY READ THE BELOW WARNING STATEMENTS. FAILURE TO FOLLOW THESE WARNINGS COULD RESULT IN SERIOUS INJURY OR DEATH.

⚠️ WARNING:

FALL HAZARD: Children have suffered severe head injuries including skull fractures when falling from high chairs. Falls can happen suddenly if child is not restrained properly.

- Always use restraints. Adjust to fit snugly.
- Tray is not designed to hold child in chair.
- Stay near and watch child during use.
- Prevent serious injury or death from falls or sliding out! Ensure that the harness is fitted correctly and that the child is secure in the harness.
- The highchair is suitable for children 6 months to 36 months while using it in highchair position. Highchair is not suitable for children under 6 months. While using this product in the Junior Chair position, it is suitable for children from 24-60 months.
- Do not use if any part is broken, torn or missing.
- Discontinue use of this highchair when child weighs more than 33 lbs.
- Do not use the highchair unless all components are correctly fitted and adjusted.
- Do not leave your child unattended, even for the shortest time.
- Avoid placing the chair near naked heat sources such as electric bar fires, gas fires, etc, or where a child could gain access to any other kind of hazard.
- Ensure that all users are familiar with the product's operation. It should always assemble and operate easy. If it does not, do not force the mechanism. Rather, stop and read the instructions.
Junior Chair

6. Screw in the rubber stops (14) onto the ends of the legs. Turn the rubber stops clockwise to tighten and secure them on. Adjust the stops to level out the floor if it is uneven. The high chair must not wobble.

Assembly

3b. Repeat the same procedure to assemble long leg "D" (6) with the connectors. Note: The legs are labeled for easy reference i.e. match the long leg "D" with the fixed connector's "D" side.

⚠️ WARNING:
Failure to fully tighten screws may cause instability.
Assembly

4a. The small footrest (9) should be assembled on the top, while the big footrest (10) should be assembled on the bottom. Align the small footrest (9) with the pre-drilled holes at the front of the assembled wooden legs. 'Click' the small pegs into position.

4b. Insert bolt (15) into the hole located on the inside of the footrest. Turn the bolt clockwise to tighten and secure. Repeat for the other side.

Junior Chair

5a. Assemble the short legs (7 and 8) to the connectors. Insert the barrel nut (13) into the hole into the fixed connector and use the screws and washers (11) to connect to the legs to the connectors. Make sure that the head of each screw is facing outwards.

Note: The legs are labeled for easy reference i.e. match the long leg "A" with the fixed connector's "A" side.

⚠️ WARNING:
Failure to fully tighten screws may cause instability.

5b. Repeat the same procedure for the short legs labeled "B", "C", and "D". Make sure that all screws (11) are tight. Tighten all screws (12) securing the fixed connector.
Junior Chair

3. Remove both the small and large footrests. Turn bolts anti-clockwise and pull the footrests out from wooden legs.

4a. Remove the long legs. First, loosen, but DO NOT remove the four screws (11) from the fixed connector.
4b. Next, use the allen key and remove the long legs labeled “A”, “B”, “C”, “D”, connected to the fixed connector.

Assembly

5a. Align the large footrest (X) with the pre-drilled holes at the front of the assembled wooden legs. ‘Click’ the small pegs into position.

5b. Insert bolt (15) into the hole located on the inside of the footrest. Turn the bolt clockwise to tighten and secure. Repeat for the other side.
Assembly

6. Screw in the rubber stoppers (14) onto the ends of the legs. Turn the rubber stoppers clockwise to tighten and secure them on. Adjust the stoppers to level out the floor if it is uneven. The high chair must not wobble.

Junior Chair

The highchair can be converted into a chair suitable for children from 36 months (3 years) to 5 years.

1. Remove the 5-point harness. Rotate the harness on both the shoulder and waist harness. Pull them out from the front of the seat through the seat shell and the liner.

2. Remove the tray.
Harness

2. The harness can be removed for cleaning. Rotate the harness on both the shoulder and waist harness. Pull them out from the front of the seat through the seat shell and liner.

3. To refit the harness, rotate the harness and insert them through the liner and seat shell. Pull them out through the back of the seat.

Assembly

7a. Position the seat unit (1) over the assembled wooden legs. Align the holes ensuring that the seat and the footrest are on the same side.

7b. Insert screws and washers (12) into the holes from the underside of the wooden legs and tighten with Allen key (16). Be careful not to tighten too much.
Tray

1. The plastic tray can be adjusted and has 2-positions. To attach, pull the two adjustment levers and slide the tray along the armrest. Release the levers at your desired position. To remove the tray, pull levers and slide tray towards you.

2. The tray features a snack tray which is easily removed; locate the lip and lift upwards.

Harness

1. Slide the shoulder strap buckle clip onto the housing of the waist strap buckle clip. Repeat for the other side.
2. Insert the completed buckle clip into the buckle housing until it engages securely in place. Listen for the 'click'.
3. Repeat for the opposite side.

⚠️ WARNING:
Always use the harness and ensure it is correctly fitted securely while child is in the highchair.

1. Keep the shoulder strap fully extended.
2. Slide the shoulder strap buckle clip into the buckle housing until it engages securely in place. Listen for the 'click'.
3. Repeat for the opposite side.

4. Press the center buckle button to release child from harness.
5. To adjust the shoulder and waist straps length, move the sliders as shown.

⚠️ WARNING:
FALL HAZARD: Children have suffered severe head injuries including skull fractures when falling from high chairs. Falls can happen suddenly if child is not restrained properly. Always use restraints. Adjust to fit snugly.
